

LEADERS PLAN DRIVE FOR SALVATION ARMY THROUGHOUT STATE SOON

Great Campaign Will Start Next Week—Lee Co. Committee Ready.

The Salvation Army Home Service Drive for the State of Illinois, outside of Cook county, was formally started at a meeting held in the Capitol at Springfield last week. Representatives from virtually every county including Mac, Bradford, Brinton, Lee county chairman, were present.

Lieut. Gov. Oglesby, in the absence of Governor Lowden, presided and endorsed the movement. He read a letter from the Governor to F. S. Peabody, State Chairman for the Salvation Army in charge of the drive. The letter follows:

My Dear Mr. Peabody: I regret exceedingly that, on account of absence from the city, I shall be unable to preside at the Salvation Army conference on next Wednesday in Springfield. Though I shall not be able to be present, I wish you would assure the conference of my deep interest in this campaign. The Salvation Army in its great services to humanity, whether in peace or in war, has won the admiration and gratitude of good people everywhere. I trust that the campaign which you will inaugurate at this conference may be a distinct success.

With all good wishes, believe me, Sincerely yours, Signed, FRANK O. LOWDEN. Mr. Peabody outlined the plan of campaign and urged an organization that would cover districts, counties and precincts. He also said that the object of the drive was to raise \$2,250,000 of which \$1,500,000 was to be raised in the county of Cook, and the balance in the State; that among other things, the money was to be used for a New Rescue and Maternity Hospital with Training School for Salvation Army Nurses, three new slum center buildings, addition to Young Woman's Boarding Home, Boys' Home and Trade School, a summer vacation home, new Salvation Army hall, and relief centers all over the state.

For State Organization. Mr. Peabody urged that the Salvation Army organization be made a state institution similar to the Y. M. C. A., Knights of Columbus, Jewish Charities and other great permanent organizations for the benefit of the people. He stated that no more than 6 per cent of all the money heretofore collected for Home Service Work in the Salvation Army organization had been expended for the maintenance of the organization itself, a remarkable record for economical distribution of charity.

Particular attention was called by Mr. Peabody to the personnel of the various state, district and county organizations and the high class of citizens who had engaged in this splendid work. Representative men from the city of Chicago are devoting their time and efforts to the work. Citizens of all nat-

ionalities and all religious denominations, as well as the Elks, Knights of Columbus, Y. M. C. A., the Jewish Charities, the American Legion, the Labor organizations, in fact every great charitable organization is helping the drive. The returned soldiers must not be overlooked. They, too, are using every resource at their command to make the drive a success.

In his introduction of Mrs. Thomas Estill, Mr. Peabody spoke of the self-sacrificing work done by the Army before the war, during war and their earnest endeavor to accomplish greater results than ever since the war. Mrs. Estill in her talk gave examples of the work the Army is doing, particularly with the women, girls and children.

Staff Captain C. A. Ryan gave in more detail the work of the Army and the use to which the funds now being collected will be put. State Director R. Dunbar went fully into the details of the organization for the collection of funds. Speeches were made by the following gentlemen endorsing the work: Webster H. Rapp, State member Elks Association, Wm. Hutton, member United Mine Workers of America; Judge Cook of Perry county; Col. G. F. Seaman of Taylorville for the American Legion; Chas. L. Schwartz of Dupage county. At the conclusion of the meeting a rising vote was taken endorsing the efforts of the committee and pledging the earnest support of all present to make the campaign a complete success.

ODDS AND ENDS.

OREGON—Oregon plans to redeem itself for the unsatisfactory celebration for soldiers and sailors on Labor day by putting on a big celebration on November 11. Soldiers who attended the previous celebration complained of lack of entertainment, food and attention.

ROCKFORD—The Northern Illinois Livestock Breeders' association will hold its fall hog sale here October 21 to 23. The cattle sale will be held in November.

ELGIN—Walter Heath, 19 years old, is principal of the Maple Park schools. He graduated from a country school at the age of 12 years; finished a four year high school course at 16 and completed a two years college course at 18.

ROCKFORD—Rockford college will put on a campaign to secure an endowment of \$750,000. It is expected \$250,000 will be secured from the alumni, and \$500,000 in Rockford. A big program of improvements in the college is planned.

EAST MOLINE—The Eureka Chemical company has purchased a 210-acre farm northeast of this city for \$45,000 where it will place purchased sick hogs for treatment.

A Nincompoop.

"Nincompoop" is a most entirely satisfying and refined way of calling a person a fool or blockhead or a simpleton. It is a corruption of the Latin phrase "non compos mentis"—not sound of mind. Besides being satisfying and refined it has a classical origin in addition.

Government to Probe Sale of Army Foods to Wholesale Firms

By Associated Press Leased Wire

Chicago, Sept. 15.—While the director of sales of surplus army foods is conducting an inquiry, which Secretary Baker said would be started according to special dispatches from Washington, to determine whether wholesalers and profiteers in Chicago obtained foodstuffs intended for the public, the city food bureau proposes to continue its investigations. It was said today. The bureau last week examined representatives of large wholesalers, some of whom admitted buying army canned goods of varying grades and at varying prices, from the army warehouses here and selling them at usual prices to retailers, in some instances relabeling them as their own brands, while the public was told there was no more surplus army food for them.

Some Get One-third Profit

The wholesalers, some of them made as high as 33 1-3 per cent profit on army canned goods and some of whom are said to have stored large quantities of foodstuffs in further storage houses, did not obtain their supplies through the post office sales, according to Lieutenant Colonel George F. Ummacht, first assistant in the Chicago zone supply office, but through bidding prior to the time the government arranged to sell to the public through the post office department. He said the wholesalers bought under the "proposal system."

"The supplies were then sold to soldiers and the awards made at Washington" said the officer.

Chance for Inventors.

A prize of \$10,000 is offered by the Walnut Growers' association to any one who will invent a satisfactory machine for branding the shell of each English walnut in a yearly \$10,000,000 crop.

Brief Summary of Last Night's News

By Associated Press Leased Wire

EL PASO, Texas.—Six thousand dollars in gold was paid Mexicans for the release of Dr. J. Smith, an American and E. Monson (Munsen?) believed to be a subject of Sweden, who were taken from a train near Santa Eulalia, Chihuahua, according to telegrams from Chihuahua City.

ROME—Premier Nitti, in the chamber of deputies, announced that the commander of the sixth army corps had been ordered to intercept and disarm Gabriele D'Annunzio's troops, but that these troops had refused to obey the commander's orders.

NEW YORK—The strike of United States steel corporation employees set for Sept. 22, will be deferred until after the industrial conference in Washington in October, it was learned Sunday from a reliable source.

CALEXICO, Calif.—The northern district of lower California, was closed to further immigration by "Japs," Chinese, and Asiatics," in an order issued Sunday by Governor Esteban Cantu.

SAVANNAH, Ga.—The steamer Barnstable went down off St. Catherine's Friday. It is reported that fourteen of the crew are missing.

MINEOLA, N. Y.—A new unofficial world's altitude record was established, it was learned Sunday, when Poland Rohlfis climbed to height of 34,000 feet, beating the previous unofficial record by 864 feet.

PARIS—Albanian refugees arriving here from Koritza and the surrounding district bring reports of the terror inspired by the advance of Greek troops into that territory.

VIENNA—Austria continues to drift toward an internal situation approaching the chaotic and leading men and newspapers are beginning to voice apprehension as to what may follow unless a strong central government can weld the country into a more harmonious national whole.

BERLIN—Hammer, the notorious Spartacist leader of Essen and chief instigator of the general strike last February and 'assurton in the Ruhr' district, has been assassinated.

PARIS—A dispatch from Sosnowice in the government of Piotrkow, Poland, said that a German army of practically 200,000 men was concentrated on the frontier of Silesia ready to be thrown against Poland.

German Traders Are Active in Venezuela

San Juan, Porto Rico, Sept. 9.—(Correspondence of the Associated Press)

American travellers who have recently arrived here from Venezuela report that there are open evidences of renewed German activity in that country. Just how they have come no one seems to know but many Germans have been arriving in Venezuela during the past few months and German commercial travelers are reported particularly active. They represent all lines of industry. As one man who returned from Venezuela last week explained it:

"If I want to sell clothing at \$15 a suit to the Venezuelan merchants, a German salesman has something just as good for \$12 or \$13. If I offer 30 days or 6 months credit the German offers six months or a year. In every line it is the same way. They are offering to take orders for all classes of manufactured goods and promise prompt delivery. Many Germans are arriving in Venezuela evidently to settle there and make it their home."

Many firms who controlled lines of business in Venezuela before the war, commenced to engage actively in business immediately after the signing of the armistice. Firms blacklisted during the war, found no great difficulty, it is said, in engaging in both import and export business.

Walnut Holds Great Welcoming Event

On Tuesday the town of Walnut held a most successful welcome home celebration for its soldier boys. In the morning a parade of decorated floats and different groups, representative of societies who played a large part in the successful outcome of the war, was given and in the afternoon ex-Governor Hanley of Indiana gave a strong speech favoring the league of nations. Various amusement features, free motion shows, concerts by the Sterling and Walnut bands, and a free dance, with music by Selig's orchestra from Princeton, were some of the things making the day pass pleasantly for the soldier sons of Walnut. An aeroplane, to give an exhibition, did not reach Walnut till the day following, because of mechanical troubles in route. At noon a chicken dinner was served free to the soldiers and their friends, each soldier being privileged to bring three guests.

First and second prizes were awarded respectively to the Boy Scouts and Red Cross floats for the two best floats in the parade.

IS SHE STILL ALIVE?

For over four years a young Greek in America had not heard from his aged mother, who lived in Constantinople. Eagerly he watched the mails for a letter. Month after month he sent her money for food and clothing, but never knew whether she received it or not. Four years passed without a word from his dear old mother and he frantic with grief and despair.

Then the war ended and he hastened home on the first boat that sailed for Constantinople to find out if his mother was still alive.

The terrible strain of the war has affected nearly everyone. American fathers and mothers have suffered in silence, waiting day and night for some word from their boys far away in the army.

Thousands of foreign-born Americans have waited in vain for a letter from their father, mother, sister or brother across the sea in war-torn Europe. Grief gripped their hearts when they thought of their loved ones cold, hungry and despairing amid their ruined homes and the graves of their dead.

How could they laugh when they were sick at heart? How could they help grieving as day after day went by and no letter came. The mother, whose son was grievously wounded and at the point of death somewhere in France, could not go to her boy. She could but wait and pray for him.

With the clutch of fear at their hearts and nerves strained to the breaking point, many fathers and mothers have bravely smiled, but the strain and suspense have brought the gray hairs, lowered their vitality, exhausted their strength and undermined their health.

Many soldiers have returned home to find that mothers, fathers, sisters or brothers have broken down under the terrible strain of the war. Many have found vacant chairs in the family circle when they came back from France. The "flu" has left thousands of people weak and exhausted. They feel as if they never will get their strength back again.

If you feel weak and lack strength or are nervous, rundown, tired out and exhausted, REOLO, the wonderful discovery of Dr. A. L. Reusing, will renew your strength and make rich red blood, vitalized with life-giving oxygen, and the cell-salts that nature requires to rebuild the exhausted nerve cells.

REOLO has remarkable tonic and strengthening qualities. It tones up the heart and nervous system, stimulates the appetite, aids digestion and sends through the entire body a stream of rich red blood, vitalized with oxygen, that makes the cheeks glow, the eyes sparkle and the whole body thrill with vigor and vitality.

REOLO is sold in sealed packages containing 100 tablets, sufficient for two weeks' treatment. It only costs one dollar a package and is positively guaranteed to give beneficial results or we will gladly refund your money.

Thousands of people, who have been suffering from nerve strain and enervating diseases, have been restored to health by Dr. Reusing's wonderful formula.

REOLO is sold in Dixon by Sterling & Sterling, Licensed Distributors for the Dr. A. L. Reusing Laboratories, Akron, Ohio.

NEWSPAPER ENTERPRISE

the publication of Gen. Ludendorff's confession of Germany's defeat is unique in the history of journalism. Before it was accepted for newspaper publication it was submitted to Lord Northcliffe, editor of the London Times, and to Sir George Hutchinson, the great English publisher, who both pronounced it "the great story of the German side of the war."

Lord Northcliffe secured the newspaper publication rights for England and the British Empire. The American rights were bought by Harper & Brothers and The McClure Newspaper Syndicate of New York, which latter organization, in turn, has sold the newspaper rights to the leading newspaper in each of the principal cities of the country—sixty-five in number—including such papers as the New York World, the Philadelphia Public Ledger, the Boston Post, the Pittsburgh Gazette-Times, the Baltimore Evening News, the St. Louis Post-Dispatch, the Omaha World-Herald, the San Francisco Examiner, and the Cincinnati Enquirer.

After the Chicago rights had been offered to The Chicago Daily News—and had been accepted—another

Chicago newspaper offered twenty thousand dollars for the Chicago territory.

The book will be brought out simultaneously in America, Germany, France, Great Britain and the British Empire, Scandinavia, Spain, Italy and practically every civilized country in the world.

Publication begins in The Chicago Daily News today and will continue in daily installments until completed.

Place your order with your newsdealer today, so that he may have time to increase his usual supply of the paper. If you find it more convenient to receive the paper by mail, send a dollar bill, covering two months' subscription, addressing The Chicago Daily News, 15 North Wells Street, Chicago.

Do you know The Chicago Daily News? The London Chronicle says: "The Chicago Daily News is by far the best evening newspaper in the world." It averages between 32 and 34 pages in size and has the largest circulation in Chicago of any newspaper—it frequently sells over 400,000 papers a day.

If your newsdealer is sold out on to-day's issue of The Chicago Daily News he can supply you with a "reprint" sheet containing the opening chapters of Ludendorff articles:

WED IN FREEPORT—

The marriage of Roy F. Crabtree, of
this city, to Miss Lelia Boers, of Shell
Rock, Iowa, took place in Freeport at
the Methodist church Saturday after-
noon. The pastor, Rev. Mr. Funston,
read the service. The bride was attired
in a dark blue tailored suit and with
this wore a black velvet hat. They re-
turned to Dixon Sunday evening and
are making their home at 812 First
street. The bride is a very attractive
young woman. She has made her home
in Dixon with her brother, Charles
Boers, at 1014 Sixth street for some
time and has made many friends during
her residence here. Mr. Crabtree is the
foreman in the finishing room of the
Brown Shoe company.

AT H. M. COE HOME—

Mr. and Mrs. Harry Coe and daugh-
ter, Caroline, of Springfield, Ill., spent
the past week here with Mr. Coe's par-
ents, Mr. and Mrs. H. M. Coe, and from
here went to Ashton to visit Mrs. Coe's
people. Edward Coe, another son of
Mr. and Mrs. H. M. Coe, was also here
during the week on his way from
Omaha to Chicago. Mr. and Mrs. Ar-
nold, of Ashton, were guests on Thurs-
day and participated in the family pic-
nic held up the river.

TEMPEL-SARBER—

On Saturday afternoon at 4 o'clock
in St. Paul's Lutheran church, Mr.
John W. Tempel, of Shannon, Carroll
County, Ill., and Miss Ethel C. H. Sar-
ber, of Lanark, Ill., were united in mar-
riage by Rev. F. D. Altman. The groom
is the son of Mr. and Mrs. Herbert W.
Tempel, of Carroll county, and the
bride, the daughter of Mr. and Mrs.
Eugene S. Sarber, of Lanark. The cou-
ple will be at home on a farm near
Shannon.

SUBLETTE MAN WEDS—

Rockford Register-Gazette: Julius L.
Theiss, of Sublette, was married in
Rockford Thursday morning at St.
Mary's church to Miss Grace C. Butler,
of Mt. Vernon. A wedding breakfast
was served the bridal party at the Nel-
son hotel, covers being laid for twenty-
four. Mr. and Mrs. Theiss left on an
early afternoon train for Sublette
where they will make their home.

BAPTIST MISSIONARY—

The Missionary Department of the
Woman's Auxiliary of the Baptist
church will hold a meeting with Mrs.
Guy Miller, 224 East Boyd street,
Thursday afternoon at 2:30 o'clock.
Miss Martha Smith will be the assistant
hostess. The annual election of officers
will be held and a large attendance is
desired.

NEIGHBOURLY CLASS PICNIC—

The "Neighbourly" class will have a
chicken dinner at Lowell Park Thurs-
day, Sept. 18, at 12 o'clock, but all who
participate are expected to be at the
park by 10:30, at least. Each family
will bring own fried chicken, sandwich-
es, dishes, silver, and one other picnic
dish. All members of the class are
urged to be present.

DINERS AT NACHUSA—

Among the Sunday dinner guests at
the Nachusa Tavern were the Hon. and
Mrs. John Devine, A. G. Harris, O. H.
Martin and wife, Mrs. M. J. McGowan,
Dr. and Mrs. E. B. Owens, Miss Kath-
erine Owens, Miss Winnifred Roe, Mr.
and Mrs. J. Wilbur Crawford and Miss
Seville, and Thomas H. Eustace.

VISITED IN CHICAGO—

Mrs. F. K. Tribou and daughter, Miss
Helen, have returned from a several
days' visit in Chicago and Kenilworth.
Miss Tribou, who has been spending a
two weeks' vacation here, returns to
Rockford tomorrow.

PARISH SUPPER—

There will be a Parish Social supper
and evening at St. Luke's church Mon-
day, Sept. 22nd. A special speaker will
be provided, and also a musical pro-
gram. All members of the church are
cordially welcome.

FOR DR. AND MRS. ALTMAN—

Mrs. Ira Lewis entertained at dinner
at the Nachusa Tavern yesterday for
Dr. and Mrs. F. D. Altman. The other
guests were Captain Frank Altman,
their son, and Dr. and Mrs. E. C. Lums-
den.

WITH MRS. DAVIES—

Miss Ruth Grounir, of Greensburg,
Ind., is a guest of Mrs. John Davies.
Mrs. Davies and Miss Grounir were
companion Red Cross nurses in France.

SUGAR-COATING THE STREET CAR STRIKE

Street-car strikes are drastic pills
for the public. Chicago and New
York recently had to take their
medicine. The same dose may be
brewing for other cities. But with
the experience of the eastern and
western metropolises to guide them,
other towns may sugar-coat their
local transportation troubles. There's
a way.

Street car strikes are calamities to
business men. Preparedness is the
only remedy for them. One busi-
ness man of Chicago at least
was prepared. He set an example
for merchants all over the country in
future street car strikes. Street car
strikes do not blow up out of a clear
sky. There are always signs of their
coming. Frank D. Mayer, president
of Essenkay Products company, the
filler manufacturers, read the signs
in advance and prepared for the
crisis. This is the way he did it:

When the strike seemed certain,
Mr. Mayer planned a private trans-
portation line for his employees. He
had pocket maps of the city printed,
showing routes over which his trucks
would run, with a time-table giving
the hour at which the trucks would
be at given points. He distributed
these maps among his employees.
When the strike came, he threw a
fleet of big trucks into service.
Every morning at the appointed sta-
tions the trucks picked up his em-
ployees and delivered them at the
plant on time and took them home-
ward at night. Throughout the
strike, this private transportation
line ran on regular schedule.

As a result, not an employee was
missing from the factory during the
strike. The plant maintained its
normal output. The strike, which
cost other merchants thousands of
dollars, cost the Essenkay company
not a cent.

WOMEN'S GOLF CUP MATCH—

The 1919 Women's Handicap Cup
tournament of the Dixon County club,
the final match of which was played off
on Thursday between Miss Helen Mc-
Kenney and Mrs. T. Jason Miller, Mrs.
Miller winning, had the following en-
tries, paired as given:

Miss Rosanna Dement, Miss Franc
Ingraham.

Mrs. Harry Lager, Mrs. A. A. Row-
land.

Mrs. Gordon Utley, Miss Stiles.

Mrs. C. E. Smith, Miss Helen Mc-
Kenney.

Mrs. L. R. Evans, Mrs. Willard
Thompson.

Mrs. Jason Miller, Mrs. Edward
Vaile.

Mrs. Harry Roe, Mrs. Geo. Boynton.

Mrs. Florence Raymond, Mrs. F. L.
Hamilton.

The winners of the first match were
Miss Dement, Mrs. Rowland, Mrs. Ut-
ley, Miss McKenney, Mrs. Thompson,
Mrs. Miller, Mrs. Boynton, and Miss
Raymond, who were paired for the sec-
ond and contest in the order given. This
resulted in the elimination of Miss De-
mont, Mrs. Utley, Mrs. Thompson, and
Mrs. Boynton, and left Mrs. Rowland,
Miss McKenney, Mrs. Miller and Miss
Raymond to enter the third match.

Mrs. Rowland and Miss McKenney
played off, eliminating Mrs. Rowland,
and Mrs. Miller and Miss Raymond con-
tested with Mrs. Miller triumphant.

This left Miss McKenney and Mrs. Mil-
ler to play off the ultimate match, with
the result as above noted.

Mrs. Miller is holding the cup her sec-
ond year; another year's winning will
make her its owner. The first year the
cup was offered, Mrs. Miller won the
contest; the second year, Mrs. F. L.
Hamilton was the winner, and the third
year, Miss Helen McKenney, who con-
tested the honor with Mrs. Miller this
year, held the cup.

THE TEACHER'S PAY ENVELOPE.

The schools of America were found-
ed on the conviction that the mental
and moral training of the children and
youth of the land measure exactly the
stability and security of the nation.

That is a broad foundation. No think-
ing American will doubt its soundness.
The health, strength, happiness and
durability of the nation depend pre-
cisely on what we put into the heads
and hearts of the children.

In the days of Horace Mann and the
"Hoosier Schoolmaster," teaching
school was the most honorable of pro-
fessions. There were many men who
were the recognized leaders in their
communities because they were the
teachers of the children.

In a century's time, the once exalted
profession has been transformed into a
"job." It is not that the teachers of
today are less capable, less idealistic,
less interested in developing "just
kids" into splendid men and women.
They possess a far wider range of
knowledge and interests than did the
teachers who borrowed their inspira-
tion from such intellectuals as Cotton
Mather and Jonathan Edwards. But
the profession of teaching has sunk to
the level of a job merely because teach-
ing "does not pay," while there are
innumerable other jobs that do.

The improvement of his material
condition is an absolute necessity to
the average teacher who wishes for the
social contacts which are as the
breath of life to the Anglo-Saxon
American. In proportion to his social
needs, the schoolmaster of a century
ago had ample, and to spare. In pro-
portion to present-day needs, the
teacher is close to poverty, and is
strictly barred from many of the desir-
able and helpful social contacts of his
community. He simply cannot afford
them.

One can live on little, but it costs
much to live well. Hence the teacher
is either buoyed up by the noblest of
self-sacrificing idealism, or is looking
for a job that will pay enough to make
it possible to get on reasonably well.
Many who are born teachers, love to
teach and yearn for the chance, turn to
the business openings which will pay
enough to support those naturally de-
pendent on them on the average so-
cial plane of the community, and pro-
vide some savings for the future.

America is making money by the
billions. But America is overlooking
the one spot where the investment of
much more money would do the most
good—the teacher's pay envelope.

JUSTICE FOR KOREA.

An army does not make a good col-
onizer. This is the experience of many
countries. But Japan had to learn it
all by herself.

When the Japanese came into con-
trol of Korea, a military governor was
made administrator. He gave a mili-
tary ring to all his decrees. He backed
up his commands with the soldiery. In-
stead of trying to win over the Kor-
eans to a liking for reform, the meth-
ods and appliances of western civiliza-
tion, an instinct for cleanliness and a
desire for education, he endeavored to
force these betterments with the bay-
onet and the sword.

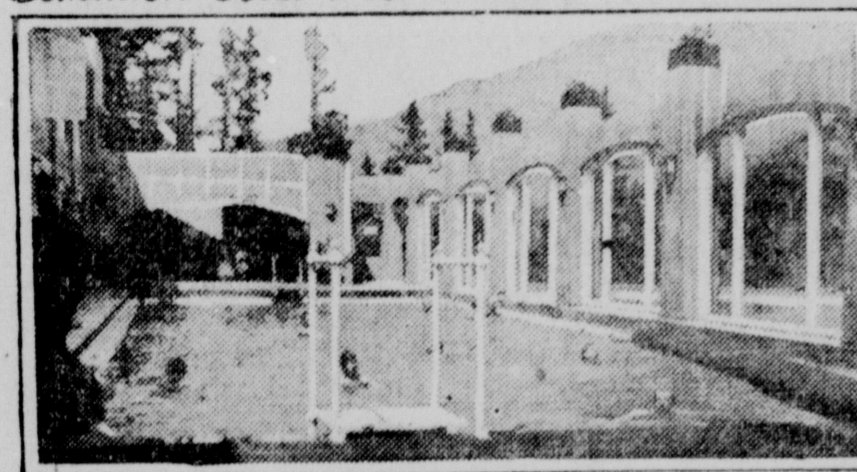

The natural result was the develop-
ment of a strong nationalist spirit in
Korea. Natives appeared who invited
martyrdom by opposing the will of the
Japanese. And the Japanese respond-
ed with new oppressions, fresh incen-
tive to rebellion. The administration
of Korea became a world scandal.

Probably under normal conditions,
Japan would have stuck to her prac-
tices and defied the world's harsh
criticisms. But she is engaged in a
great game the success of which re-
quires the good will of other peoples
and nations. She wishes to obtain per-
manent grip upon territory in China.
She aims to get recognition for a
Monroe Doctrine in Asia, in which Ja-
pan will be the counterpart of America.
Korea is becoming a side issue, a small
and not very interesting phase of a
great policy. If the colonization of
Korea fails that will be advertisement
that Japan is unfit to go through with

SWIMMING HOLES DE LUXE IN THE HEART OF CANADIAN ROCKIES

Dominion Government Pool at Cave and Basin

Pool at the Banff Springs Hotel

The average man's idea of a vaca-
tion in the mountains does not in-
clude the pleasure of aquatic sports,
but Banff, Alberta, in the heart of
the Canadian Rockies, offers swim-
ming in addition to the ordinary
pleasures of the mountains.

Sulphur Mountain rises three and
a half thousand feet above the pic-
turesque valley in which Banff lies,
which, in turn, is about five thou-
sand feet above sea level. This
mountain, like a giant tea kettle, is

constantly heating vast quantities of
water in its depths and impreg-
nating it with sulphur and other
minerals beneficial to man. Con-
stantly, too, it expels the heated
sulphur water and part of the flow
is caught in the Cave and Basin, a
wonderful swimming pool, built by
the Canadian government at a cost
of \$15,000. Through the summer
months visitors from all over Canada
and the United States bathe in this
pool, which is 150 feet long by 35

feet wide and from 2 1/2 to 9 1/2 feet
deep. The pool is fed from the
springs in a nearby cave. This
spring has a flow of 25,000 gallons
an hour at a temperature of about
100 degrees Fahrenheit.

The Dominion government of
Canada maintains another pool on
the wooded slopes of Sulphur Moun-
tain, into which the water pours at
about the same temperature. The
Banff Springs Hotel likewise has a
sulphur pool, and, in addition, a
fresh water pool.

DEMOCRATS NAMED
DIXON AND ERWIN

The official count of ballots cast in
Lee county last Wednesday for can-
didates for the constitutional convention
resulted as follows:

B. H. Brewster, republican 418
Alvin Warren, republican 395
Henry S. Dixon, democrat 19
John E. Erwin, democrat 4

By this count two more very capable
men are named as candidates for the
convention. These names were written
in on the ballots as were others, but
Mr. Dixon and Mr. Erwin received the
largest number.

was bound from this port to Havana
with a cargo of coal.

Residential Buildings
Boom in Many Cities

By Associated Press Leased Wire
New York, Sept. 15.—A boom in resi-
dence building in the districts centering
about New York, Chicago, Philadelphia,
Boston, Pittsburgh and Minneapolis was
reported today by the F. W. Dodge
company in its record of building pro-
jects for the week ending Sept. 5. In
a total of 1,564 building projects re-
corded 918 or about three-fifths were
for residential buildings, including
apartments, tenements, individual
homes and hotels.

CORPUS CHRISTI IS
BADLY DAMAGED BY
HURRICANE SUNDAY

(Continued from page one.)

ing. The streets in the business section
of the city, which were under three
feet of water Sunday, were clear today.
Business was returning to normal
during the day as merchants replaced
their stocks which had been put in places
of safety Saturday.

By Associated Press Leased Wire
Dallas, Tex., Sept. 15.—Fears of se-
rious property damage around Corpus
Christi bay were expressed here today
by former residents of Corpus Christi,
who said that if the water from the
gulf storm had reached a depth of six
feet in certain sections of the city, it
was almost certain that many dwellings
along the bay had been washed away.

Telegraph and telephone companies
today took up the task of untangling
the wire system in the Texas gulf coast
section from Corpus Christi to Brown-
sville, where yesterday a tropical hurri-
cane, sweeping in from the gulf, sever-
ed wire communication and did consid-
erable other property damage.

Only meagre reports were available
early today from the area visited by the
heart of the storm, apparently between
Corpus Christi and Brownsville, and
the extent of the damage was not as
certainable. First reports, however,
made no mention of fatalities.

The last word received from Brown-
sville was an Associated Press dispatch
via army wireless late Sunday night. It
referred to conditions obtaining up to
4 p. m. Sunday, when the wind velocity
was forty miles an hour, and it was
raining in torrents.

Corpus Christi, isolated completely
since 3:30 p. m. Sunday, apparently sus-
tained considerable property damage
from flood waters, which it was report-
ed had risen to a height of six feet in
the streets before communication was
terminated. The water was three feet
deep in the city's principal hotel.

Galveston, hit by the edge of the
storm and saved from serious damage
by its sea wall, apparently had virtu-
ally recovered today from the effects of
the hurricane, which sent the tide wa-
ter backing into the business district to
a depth of three feet. Except for sus-
pension of street car service, the city's
public utilities came through intact.

In the brief Brownsville dispatch by
army wireless, Padre Island and Brazos
Island off Point Isabel, about twenty-
five miles from Brownsville, were re-
ported under water Sunday noon, but
the town of Point Isabel, up to that
time, was declared safe, although sur-
rounded by water. Communication be-
tween Brownsville and point Isabel was
severed shortly after noon.

TWO CITIES CUT OFF.

By Associated Press Leased Wire
Llano, Tex., Sept. 15.—With the ar-
rival of dawn today efforts were renew-
ed here to restore wire communication
with Brownsville and Corpus Christi,
Texas, two points believed to have re-
ceived the brunt of the tropical hurri-
cane that yesterday swept inland along
the lower Texas coast and then moved
into Mexico, where, weather bureau of-
ficials believe, it will spend its fury in
the Mexican mountains.

Both places had been isolated as far
as wires were concerned since yester-
day afternoon. From Brownsville, how-
ever, a brief radio dispatch last night
made no mention of loss of life in that
locality. The late direct report from
Corpus Christi said the situation was
"serious."

Numerous coast cities visited by the
storm, including Galveston, early today
reported heavy property damage but no
fatalities.

When Boston Was in Trouble.

In 1774, on the 1st of June, the Bos-
ton port bill went into operation. At
noon the harbor was closed against
all vessels and business was suspend-
ed. In a 20 days' notice the citizens
of Boston were deprived of their means
of gaining a living. Indignation ran
high throughout the colonies, contri-

their relief, and the people of Marble-
head offered the Boston merchants the
use of their wharves.

BOSTON POLICEMEN BEGIN CAMPAIGN TO GET POSITIONS BACK

**A. F. L. Has Not Intimated
Part It Will Play in
Negotiations.**

By Associated Press Leased Wire
Boston, Sept. 15.—A definite campaign to regain for the striking policemen the places now officially declared to have been lost because of desertion of duty, was expected to be begun today. The action was expected to depend upon the result of a conference between union labor leaders and Police Commissioner Curtis. The commissioner, at the request of the union heads, consented to the meeting on an unofficial basis but the labor men said they hoped to obtain from it an exchange of views which might be made the basis of negotiations.

The extent to which the American Federation of Labor would support the fight for reinstatement and recognition as a union was in doubt today. Immediate danger of a general strike, threatened by the central labor union, as its principal weapon in support of the patrolmen appeared removed by the disposition of the labor leaders to move slowly.

No General Strike
From New York Where President Gompers of the American Federation of Labor has been directing the federation's interests in the Boston situation, came word from one of his assistants that there would be no general strike action. Officers of the central union here, however, said they knew of no decision to warrant such a statement; that the proposal for a general strike was still before the union and that a decision would come with the completion of a poll of the several craft organizations. This poll is being taken secretly, it is not complete, several of the unions having yet to declare themselves. It is known that some of them voted to take sympathetic action; that others frowned upon it, and that more cautious unions postponed action until they saw how sentiment lay.

May Go to Court.
Governor Coolidge, refusing President Gompers' demand for the removal of Police Commissioner Curtis, suggested that the police might have recourse to the courts if they felt their rights had been invaded by the commissioner's action in discharging the union leaders and declaring vacant the places of the men who left their posts.

Newspaper Men of New Haven Strike

By Associated Press Leased Wire
New Haven, Conn., Sept. 15.—Three afternoon newspapers here today prepared to issue their editions under unusual conditions, a strike of news writers having gone into effect on these publications following a strike on the Morning Journal-Courier at last midnight. Managing editors and editorial writers who were not members of the newly formed News Writers' Equity association took up duties of city editors and copy readers, while the places of street men were filled by substitutes.

The strike followed refusal of publishers to increase wages of street and desk men. The equity association claims that virtually all staff and street men on the four dailies here are members and had endorsed the proposal to strike in the event of the failure of the publishers to fix a definite scale of compensation.

The evening papers are the New Haven Register, the New Haven Times-Leader and The New Haven Union. The proof readers on the paper did not strike as they are not regarded as part of a news writing staff.

PLOW CO. BALL TEAM BEAT CASE CHAMPS

The Grand Detour Plow company base ball team, organized this summer, journeyed to Racine, Wis., Saturday and incidentally showed the employees of the four Case factories in that city a few things about the great national game, defeating the champion shop team of the Case league 3 to 1. The game was very largely attended and the Racine people had a hard time realizing that their champions were being trounced. Col. W. B. Brinton, of this city, was with the officers of the Case company at the game and he had a lot of fun encouraging the Dixon ball players and roasting the company officials. A return game will be played in Dixon either next Saturday afternoon or the week following, definite announcement to be made later.

BROWNS BEAT LEE CENTER SUNDAY P. M.

George Lightner was invincible against the Lee Center team, made up of the elite of players from the central part of the county yesterday afternoon, the Dixon Browns winning by a score of 3 to 1. Lightner pitched a great game of ball for the Browns, allowing but four scattered hits and receiving very good support from his team. Callahan and Callahan formed the battery for the visitors, Lightner and Kilvan working for the Browns. The score:

Lee Center 0 0 0 0 0 0 1-14 1
Dixon 0 0 0 2 1 0 0-3 6 2

Wilmington, N. C., Sept. 15.—Investigation of the death of Captain Robie E. Corkum of the schooner William H. Sumner which grounded in Topsail Inlet a week ago and whose crew said the master killed himself because of dependency over the grounding of his vessel, has resulted in the implication of one of the crew in the killing.

The authorities here say three negro seamen have admitted Captain Corkum was shot with his own revolver last Monday morning by Charles L. Lacey, a negro mate, who was jealous over Corkum's promotion to be master,

the inventions and improvements of the day are the products of knowledge. These are the results of physical and mental power as knowledge increases. The best informed Christian is the strongest and most capable Christian the best able to pursue the path of life and to go forward with success in Christian enterprise. It is important to understand Christian doctrine. Doctrine is a method of thought by which the mind is guided in the comprehension of God. Cultivate the knowledge which God gives.

Faith Second Element
"II. The second element of this strength is faith. It may be called the receptive faculty. Its province is to take in and appropriate truth, as in digestion. The offers of God do not help man till they are received. We can realize up to the measure of our faith. The man who believes strongly, sees keenly. A man of negative opinion, though right, is a more feeble power than he who is earnestly wrong. But, to be positively right, believing with all the soul, is to be an increment of might. Such were Luther, Wesley, Whitefield and Moody. Truth did not run over such souls, but into them, becoming a part of their moral fibre, making them aggressive and progressive. What we need is honest hearts set on fire with the truth. Away with mushroom infidelity. If the Christian will believe and not doubt that God is with him, not as a name only, but as a real presence; if he believes in Christ, not as a name in the creed, but as his Savior, if he believes in heaven, not as a dream, but as a home of blessedness to which he can 'read his title clear'—that Christian is strong.

Individual Responsibility
"III. The third element of this spiritual strength is a deep sense of our individual responsibility. We are prone to

dissipate and diffuse our responsibility as though little was resting upon us. Paul says: 'Many run in the race, but one receiveth the prize. So run'—as if you were the only one in the world; as if you were to outstrip all others; as if but one could reach the goal, and you were to be that one. This sense of individual responsibility will lead us to another element of strength in the Christian character, viz.—consistency and steadfastness of life. This gives us a vast increase of influence over others.

Meet Hostility Firmly

"In meeting the hostility of unbelievers in respect to theism of science, falsely so-called or kid-gloved, effeminate worldliness, or the indifference and ap-

athy of the church, we need more than a feeble conviction of the truth; we need to be rooted and grounded in the love of God, that we may stand fast in the faith. Let us urge you, my brethren, if you would have a strong church, and you yourselves be strong in the Lord, be steadfast in the truth, and consistent in your life. Remember the words which I speak tonight. Be strong in the knowledge of Christ. Be strong in faith. Be strong in your sense of individual responsibility. Be strong and diligent in your attention to present duty. Be strong in Christian example.

EVERY MOTHER should seriously consider the installation of a GUNN Sectional Bookcase. Its use teaches thrift, system and economy. was my chief wish as I entered upon the work in this city. To tell you not what I have done, but what I have tried to accomplish for this church in the last nine years. My sincere desire has been that this should be pre-eminently: (1) A Christian church. Not merely in name, or creed, or form, but in spirit. The true glory of any church, in my judgment is the indwelling presence of Christ, permeating the minds and hearts of its members.

"(2) A Christian Home. My picture of the church is a family, a home, a brotherhood, with hearts full of love and sympathy for each other. Where burdens should be lifted from weary hearts and where the delightful services of the Sabbath should make men and women feel brighter, happier, and stronger for the experiences of life.

"(3) A working church. This for two reasons: First, because labor is the law of the Savior's Kingdom; second, because spiritual activity in some form is absolutely essential to our growth and development in the divine life. For your own sake, therefore, as well as for the sake of the cause, I have desired that all the members of this church should take part in the helpful activities of this twentieth century, and thus become benefactors of their race.

"(4) A Beneficent Church, pre-eminently for every good word and work. For nothing in this world is so beautiful, nothing so ennobling, and so compensating, nothing so commendable our religion to the world; and nothing secures so many credits on God's book of remembrance as Christian beneficence. The God of Heaven is a missionary God, Jesus is a missionary savior, the Holy Spirit is a missionary spirit; the church is a missionary church. The missionary spirit is vital, not voluntary, but necessary. For these reasons, I have desired that this church should take an honorable place among the churches of our Synod and of this community in all beneficent work. And in this I have not been disappointed.

Work Has Been Happy

"Such has been my ideal. How far I have succeeded may be best judged by others. As I look back, I can say truthfully that the work here has been to me in the main a joy. It has not all been sunshine, and the way has not always been smooth, but there has been much to encourage my heart. And not the least has been the conscious respect and sympathy and cooperation of the true Christians of this church and the best people of this city from the first hour until now. Take it altogether, I am glad I came, and I do not count it any self-sacrifice at all, but a privilege for which I am truly thankful, that I have been permitted to share with you the directing of this work. My chief regret is that I could not do more.

"To the members of St. Paul's, let me recommend a chastened love to this church. Your responsibilities are commensurate here. Render faithful service here. Love other Christians, other sects. Look more at the great points of resemblance, rather than at the minor

points of difference. Cherish the spirit of harmony with one another.

Grateful to Friends.

"To my friends in general I can but express a feeling of gratitude for the encouragement given me. I have been willing to labor for the general good of the community just as much as for this individual congregation. Many of you have kindly appreciated my desires for your welfare and that of your children. If during my ministry, I have been able to enlarge before you the sphere of duty and make it plainer, if you have been helped, and the path of life made more pleasant, and heaven made a little clearer, then my aim has been amply rewarded.

"If I say farewell to you, it will only be with its first full meaning, fare thee well; and if I say goodbye, it will be only with its true meaning, richer still, 'God be with thee.'

Tribute to Choir

During the delivery of the sermon, Dr. Altman turned to his faithful choir and paid them a beautiful tribute. They had been a splendid background to the pulpit and had helped out many a poor sermon, said he, and saved the pastor from defeat. He had never had even a scrap with them and the leader, Mrs. Goodsell, was here when he came and would be here when he left. The musician had survived the minister.

A few figures were given by way of information. He had delivered \$86 ser-

mons, received into church membership 347, baptized 205 children, conducted 1250 funerals, \$4 for members of St. Paul's church, and had officiated at 235 weddings.

Dr. Altman said the vision of last night's audience would be a pleasant and cherished memory forever.

Dr. Altman has always identified himself with all the best activities of the city and has always been a power for good. Taciturn and yet unyielding when the forces of good and evil openly clashed, his presence here will be missed more than can be measured. He gives up an active pastorate for a time in order that rest may be given an opportunity to better his health. The best will of not only his people but of the entire citizenry of Dixon will go with him to his new home.

Fifty Injured and Millions Lost in Gigantic Oil Fire

By Associated Press Leased Wire
New York, Sept. 15.—The spectacular oil fire which since Saturday afternoon has raged at the plant of the Stone and Fleming company in Long Island City, with injury to more than fifty persons and property damage running into the millions, was gradually burning itself out today.

Although officials of the fire department said that the blaze was well under control, it still was burning briskly and promised to continue for two or three days until the thousands of gallons of oil in the path of the flames have been consumed.

Herbert L. Pratt of the Standard Oil company of which the Stone and Fleming plant is a subsidiary, said after a survey of the ruins that the property damage would be "more than \$2,000,000." About \$500,000 of this sum is said to be represented by oil consumed in the fire. As nearly as could be ascertained with the fire still raging, 35 of the company's large oil tanks have been destroyed.

MILK PRODUCERS TRIAL IS BEGUN IN STATE COURT

Defendants Would Fill Coliseum and Great Hotel if Present.

By Associated Press Leased Wire
Chicago, Ill., Sept. 15.—Selection of a jury to try members of the Milk Producers association charged with conspiracy to create a pool or trust agreement to fix the price of milk for the Chicago district in 1917, and to eliminate the independent producer, was begun today before Judge Joseph Fitch.

The indictment, returned in February, 1918, names eight men but according to Charles S. Deneen, attorney for the defense, if all of the defendants classed in the indictment as "persons unknown" were hailed before the bar it would tax the capacity of the Coliseum and the Auditorium combined, for these "unknown" persons comprise the membership of the association in northern Illinois and Indiana and southern Wisconsin, which at the time of the indictment numbered 16,427.

It is charged and not denied that the association fixed the wholesale price of milk at \$3.42 per hundredweight in 1917. According to Mr. Deneen such price-fixing by farmers was legalized by a special enactment of the Illinois legislature which became effective July 1. The defense will attempt to establish that the new statute is retroactive in effect.

A cost formula by Prof. F. A. Pearson, of the agricultural college of the University of Illinois, was used in arriving at the price \$3.42. The formula calculated that it required 20 pounds of grain on the producers farm, 24 pounds which he has to buy elsewhere, 110 pounds of hay and three hours labor to produce 100 pounds of milk. The present wholesale price is \$3.55.

The defendants named in the indictment are Charles H. Potter, president; Willis J. Kittle, secretary, and Frank S. Reese, Robert M. Homan, Clinton J. Cooper, Roy Lewis, William A. Goodwin and Arnold Huber. All were members of the executive board of the association. There were 342 locals in the organization, each with one representative in the general body. The latter operated through its executive board.

"The farmers are much worked up over the case, particularly as the distributors, who fix the price to the ultimate consumer, apparently have never been attacked, or even investigated," said Mr. Deneen. "When the United States entered the war the federal government sent out a commission to fix the price of milk on a cost plus basis and after five months work they found the costs so high that they fixed the price on costs alone, eliminating all profit. The farmers were disappointed, too, at our inability to obtain a change of venue from Cook county where most of the population is composed of milk consumers already wrought up about the high cost of living."

to be eliminated from American statesmanship."

Scoring the committee reservation to article ten of the league of nations covenant, Senator McCumber said it really is an amendment "pure and simple" and designed to take the United States entirely out of the league.

Shantung Amendment
Special opposition was expressed by Senator McCumber to the proposed amendment to the Shantung provision. By this amendment, he said, Japan would be "kicked out" of the league by the United States and Shantung possibly lost to China.

Calling attention to what he termed the failure of the committee majority to explain the purposes of the league, Senator McCumber said:

"Not one word is said, not a single allusion made concerning either the great purpose of the league of nations or the methods by which those purposes are to be accomplished."

"Irony and sarcasm have been substituted for argument. It is regrettable that the animosity which centers almost wholly against the league should have been engendered against a subject so important to the world's welfare. It is regrettable that the consideration of a matter so foreign to partisanship should be influenced by hostility towards or subservience to the president."

U. S. To Have Equal Votes
Analyzing the committee amendments, Senator McCumber said that the amendment to give the United States equal votes in the league with England and the British colonies was "unnecessary."

The plan of giving each member nation one vote without regard to size or importance was the only possible plan, the senator urged, adding that to all intents and purposes the British colonies are independent.

Senator McCumber said his only objections to the Lodge reservation on withdrawal from the league was of form. As to the Lodge reservation to article ten, Senator McCumber said he had many objections.

Attacks Tenth Amendment
"First it is an amendment pure and simple," he said, "of the most important article in the league. Its purpose is to take the United States as a power for the peace of the world out of the league entirely."

"Second it places this country in a false and wrong position, an attitude of encouraging powerful countries to

inflict or impose any wrong upon weaker nations, by our declared policy of non-intervention."

With his report Senator McCumber submitted the six reservations he championed as substitutes for the committee reservations. These recently were made public.

Printers Face Fight on 44 Hours a Week

By Associated Press Leased Wire
New York, Sept. 15.—The annual convention of the United Typothetae of America opened here today with the question of the 44-hour week up for settlement, although it was not on the convention program. The recent vote taken by the job and book division of the International Printers Organization to put the 44-hour week into effect on May 1 next threatens to cause a division in the printers' ranks, the largest local unions of New York city demanding that it become effective Oct. 1.

Other subjects to be discussed include general labor conditions and the relation between the printing industry and its customers.

Delegates representing 3,700 master printers are here for the convention.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well, what a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour, bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

Do You Remember Gasless Sundays?

NO better way could be found to illustrate and emphasize the usefulness of the Standard Oil Company (Indiana), and the broad and varied service it renders, than to take five minutes and imagine a gasless year.

Think how our lives instead of being full and complete through association with our fellow men would be circumscribed by the barriers set up by shank's mare.

Think how manufacturing would be hampered. How industry generally would be crippled. How crops would go to waste through inability to harvest, and the leaps and bounds that the cost of living would take.

Instead of the natural expansion of business that comes from service and usefulness, the whole structure of business would be hampered through sheer inability to render to society that service which society has been accustomed to demand.

The Standard Oil Company (Indiana) is a public servant owned by 4649 stockholders, no one of whom holds as much as 10 percent of the stock.

The Standard Oil Company (Indiana) is doing a big job in a big way and has grown great simply by reaping the rewards that come from rendering the service demanded by business and society in a manner satisfactory and beneficial to the world at large.

NO HANDS; BRITISH SOLDIER CAN WRITE

London, Aug. 25.—(By Mail.)—Blind and deprived of both hands, Sergeant Alan M. Nichols of the Second Durham Light Infantry refused to be classed as an "unemployable" and today can write letters as proficiently as any normal stenographer. Nichols' restoration to a self-supporting basis was accomplished through patient training, a specially constructed typewriter, a pair of artificial aluminum hands and his own indomitable spirit. Recently he passed a writing test of two hours and fifteen minutes, his "copy" necessitating only two corrections.

Undeveloped Country. Lake St. John, at the head of the picturesque Saguenay river, has been brought to the notice of the Royal Society of Arts by Prof. J. C. McLennan as one of the best undeveloped power sources in North America. It has an area of about 350 square miles, drains a basin of 30,000 square miles, and is 315 feet above sea level. Three easily developed power sites are capable of yielding a total of 1,000,000 horse power at tide water, and many sites for docks and industrial plants are available on the river.

CZECHO-SLOVAKIA HAS PLENTY FOOD FOR THIS WINTER

By Associated Press Leased Wire

Prague, Aug. 10.—(Correspondence of The Associated Press.)—By tightening the national belt a hole and careful conservation and organization of food supplies Czechoslovakia can weather the winter safely in the opinion of the American food experts who have been surveying the country. In fact Czechoslovakia, particularly Bohemia, is said to be a good deal better off than most of Eastern Europe. Her crops will run from sixty to seventy percent of normal and of certain valuable commodities she admittedly has some for export in return for more needed supplies such as raw materials, notably cotton.

She has appreciable quantities of oats, barley and hops that can be spared, as well as some sugar and coal, and these last two commodities are felt to be about the most precious in Europe. In return she wants wheat flour and cotton. Her spinning industry is at a standstill and experts claim that she needs approximately hundred thousand bales of cotton to supply her own needs in textiles.

The over supply of beet sugar is Czechoslovakia's big and valuable asset and gives her a strategic position in Europe. The general situation here is reassuring to the American experts and while there will be deprivation, they believe that with a well organized control of foods and close economy there will be no real suffering this winter.

Only Live Okapi in Captivity is Placed in Zoo at Antwerp

By Associated Press Leased Wire

London, Aug. 26.—(Correspondence of The Associated Press.)—British naturalists, who have been confidently expecting that the only live okapi in captivity was to be brought to the zoological gardens in Regents Park, were disappointed today when the news came from Antwerp that the animal had been brought there from the Congo by Dr. Lebrum, it was the gift of Mme. Landaghem, whose husband is in the Congo medical service.

The okapi is the survivor of a distant ancestor of the giraffe. An adult stands about five feet high, and although it has general shape of the giraffe, its neck is relatively shorter and its forelegs are not so high in proportion to the hindquarters.

The sides of the animal's head are light fawn color and the general coloration of the body is a dark purple. The most striking character is that the rump and the upper part of the legs are transversely striped with black and white. It was first known in 1901, having been found in the Semliki forest, haunting low undergrowth and swamps.

This particular specimen was in Mme. Landaghem's possession for a number of years and photographs of it received here show it eating out of her hand.

30,000 Serb Children Die in 1915 Retreat

By Associated Press Leased Wire

Washington, Sept. 15.—Of the 35,000 Serbian children sent with the Serbian army in the 1915 retreat only 5000 survived according to figures verified by American Red Cross workers and forwarded to national headquarters here. Most of these returned to their homes to find themselves orphans and the Red Cross is seeking to aid them by the establishment of orphanages and other institutions.

CORN PRICE GOES LOWER IN SPITE BULLISH EFFORTS

By Associated Press Leased Wire
Chicago, Sept. 15.—Corn values continued today to descend notwithstanding such bullish factors as the postponement of the steel strike and an upturn in the price of hogs. Bearish sentiment due to agitation for lower food cost remained the dominant influence. Excellent weather tended further to pull down the market. Opening prices, which ranged from the same as Saturday's finish to 1 1/2¢ lower, with Dec. 1.18 1/2¢ to 1.19¢ and May 1.16 1/2¢ to 1.17¢, were followed by slight rallies and then by a material setback all around. Oats were easier in sympathy with corn. Offerings, though, were readily absorbed. After opening unchanged to 1/2¢ lower, including December at 66¢ to 66 1/2¢, the market recovered somewhat, but then sagged again.

Provisions reflected the weakness of grain. Strength in the hog market had only a transient influence. Subsequently, opinions which were expressed in some quarters that for the time being liquidation was ended led to covering by shorts and to a consequent upturn in the market. Besides gossip was current that Germany had received American credits, and was now ready to buy grain. The close was strong, 1/2¢ to 2 1/2¢ net higher, with Sept. 1.37 1/2¢ and Dec. 1.20 1/2¢ to 1.20 1/2¢.

CITY BRIEFS

Has Excellent Position—Dixon friends of the Prof. Albert Scovill family, of Sterling, will be interested in the excellent position held by the oldest son, Harold, who left Thursday for Chadron, Neb., where he has accepted a stenographic position in a railroad office at \$125 per month. He is but sixteen years of age. He is a grandson of Mrs. Elizabeth Water, of this city.

To Live In Chicago—Mrs. W. R. Kerr, Jr., is expected to come from Chicago Tuesday. Her mother, Mrs. O. B. Dodge, will return with her to make her home in Chicago, on Wednesday.

Templars To Meet—A stated convocation of Dixon Commandery No. 21, Knights Templar will be held tomorrow evening at 7:30 o'clock for business and degree work.

Home From East—Mr. and Mrs. Angier Wilson and Mr. and Mrs. Glen Coe returned to Dixon last evening after a three weeks' automobile tour through the eastern states. They visited Niagara Falls, New York City, Washington, D. C., Baltimore and spent several days at Philadelphia, in attendance at the national encampment of Knights Templar of the United States.

Old Residents Here—Mr. and Mrs. Frank C. Oller and son, Paul, and daughter, Miss Bessie, former residents of this city are here calling on old acquaintances today. Mr. Oller is a prominent contractor in Oklahoma, making his home in McAllister. They made the trip from McAllister to Ashton by automobile and will return home in a few days. Mr. Oller was formerly engaged in business in Dixon.

F. Hettinger and family, of Harmon, have moved to 1123 West Third street.

Long Railway Tunnel.

The longest railway tunnel on the American continent is the Rogers Pass tunnel on the Canadian Pacific line, which is five miles in length and runs under Mt. Macdonald, in the Selkirk range. It was constructed at a cost of more than \$10,000,000. Previous to its being put through, the Hoosac tunnel on the Pittsburg division of the Boston & Maine railroad, 4 1/2 miles in length, was the longest tunnel in America.

Neat Blarney.

"Why does your horse go so slow?" asked a tourist one day in the Glen of the Downs, Ireland, of his driver. "It is out of respect to the beautiful scenery, yer honor—he wants ye to see it all. And thin he's an intelligent baste, and appreciates good company, an wants to kape the like o' ye in ould Ireland as long as he can."
